Dear Parent/Carer,

COVID 19 – Warn and Inform

You have been given this letter as someone in the school/setting has tested positive for Covid-19. **Therefore, we are asking you to be extra careful and monitor your child and your family's health, looking out for any new symptoms.**

If your child is identified as a **close contact by the National Track and Trace system**, they will be exempt from the legal duty to self-isolate. This is in-keeping with the new guidance that came into effect on 16th August 2021 which states that individuals who are identified as a contact of a confirmed case of COVID-19 in England and meet one of the exemption criteria which are listed below are now exempt from the legal duty to self-isolate:

1. You are fully vaccinated and have received their final dose of an approved vaccine at least 14 days prior to contact with a positive case.
- 2. You are under the age of 18 years and 6 months**
3. You have taken part in – or are currently taking part in – an approved MHRA vaccine clinical trial
4. You have a medical exemption and can evidence they cannot be vaccinated for medical reasons.

Individuals who are exempt from self-isolation are advised to take an LFD test every day for 7 days and can continue to attend their setting as normal, unless they have a positive test result. Daily lateral flow testing applies to contacts who are children aged 5 to 18 years and 6 months regardless of their vaccination status, fully vaccinated adults, and those who are exempt.

What to do if your child develops any COVID-19 Symptoms

If your child develops any of the symptoms of COVID-19 please get them tested as soon as possible. The symptoms of COVID-19 are:

- a new continuous cough and/or
- high temperature and/or
- a loss of, or change in, normal sense of taste or smell (anosmia)

Testing can be arranged via <https://www.gov.uk/get-coronavirus-test> or by calling 119.

If you need to seek medical advice

Seek prompt medical attention if your child's illness is worsening. If it's not an emergency, contact [NHS 111 online](#). If you have no internet access, you should call NHS 111.

If it is an emergency and you need to call an ambulance, dial 999 and inform the call handler or operator that the patient has coronavirus (COVID-19).

How to stop COVID-19 spreading

There are things you can do to help reduce the risk of you and anyone you live with getting ill with COVID-19

- wash your hands with soap and water often – do this for at least 20 seconds
- use hand sanitiser gel if soap and water are not available
- wash your hands as soon as you get home
- cover your mouth and nose with a tissue or your sleeve (not your hands) when you cough or sneeze
- put used tissues in the bin immediately and wash your hands afterward

Further Information

The Warrington Borough Council website contains information on the range of support that is available for you in these difficult times. [Education, schools and childcare - Coronavirus update | warrington.gov.uk](#) .Further information is also available at <https://www.nhs.uk/conditions/coronavirus-covid-19/>
