

CREATIVE & DESIGN

The arts world covers everything from film to fashion, music to computer gaming. While it's the artists and actors, musicians and models who take centre stage, they wouldn't be there without armies of assistants and teams of technicians

Imagination and a flair for English, art, music or a similar creative subject can help you succeed in the creative industries.

There are more than 3,000 creative apprenticeships in the sector—demand for places is very high!

GCSEs
